

# Keratin Protein Treatment

## *for Silky, Smooth, Strong Hair*

1. Fill included empty bottle halfway with heavy, waxy hair moisturizer, hair mask or moisturizer included with hair coloring.
  2. Draw up 1.5 ml Keratin Protein Treatment into included pipet and add to bottle half filled with heavy conditioner or hair mask. Shake to mix well.
  3. Wash hair twice with Clarifying shampoo. Towel dry hair and apply Keratin Protein Treatment avoiding scalp area. You may like to apply in sections.
  4. Leave on 15-20 minutes, covering hair with cap or bag.
  5. Rinse thoroughly.
  6. Blow dry hair using a brush to smooth. This is not a hair straightener, but will help train the hair for styling.
  7. Use only once every 2 weeks. Do not use on hair extensions secured with protein. Your hair will get better with every use~!
  8. Maintenance between treatments: Use 1-2 drops Argan Oil, rubbed together in hands and applied to ends of hair to keep feeding moisture to your protein infused hair. Protein loves moisture~!
- This is a concentrate. Never apply directly to hair.
  - Repairs damaged hair. Color & curls last longer.
  - Adds strength & structure so hair can grow without breaking.
  - Add to any color, perm, straightener or relaxer to protect against damage.
