

Matrixyl™ 3000

Matrixyl™ 3000 is an anti-aging product from Sederma. "Matrikine" is the term proposed for fragmented matrix peptides able to regulate cell activity. Matrixyl™ 3000 contains two matrikines, Pal-GHK and Pal-GQPR. Acting as messengers of cutaneous restructuring and repair, these two peptides work synergistically to restore and maintain the skin's youthful appearance. Matrixyl™ 3000 is useful in anti-aging products and wrinkle treatment products such as gels, serums, lotions and creams.

Incorporation: Matrixyl™ 3000 should be incorporated at the end of the [emulsion](#), at cool down, below 40C (104F).

Suggested Usage: 3 - 8%

Appearance: Opalescent Gel

Solubility: Soluble in water

Long Term Storage: Recommended at 39.2°F (4°C)

INCI: Glycerin (and) Water (and) Butylene Glycol (and) Carbomer (and) Polysorbate 20 (and) Palmitoyl Oligopeptide (and) Palmitoyl Tetrapeptide-7

Caution: Do not directly apply onto your skin.

This product should be added to a formulation at the recommended usage rate.
